

**WE ARE NOT BORN TRADERS**

**WE BECOME  
TRADERS**

**WHITEPAPER**

We are not born traders. We become traders. To succeed, we must feel the heights of winning and, occasionally, the depths of loss. The reasons are age-old: the way the human brain evolved in a very different world informs our decisions in unexpected ways. So before we can know the intricacies of markets, we must know ourselves: how we make decisions, and how emotion and experience inform our behavior.

To do that, the client needs the right platform. Ours. We founded WorldActive InternetBrokers, a platform with a unique approach to selling Portfolios, to become a trustworthy environment in which to grow. Our vision is to build the easiest-to-use and most transparent financial platform and wider network possible. We also want to transform the relationship between a Portfolio Investment Ltd. platform and its customers. This uses artificial intelligence to identify biases and unconscious behaviour, helping clients to help their minds. WorldActive InternetBrokers platform is fast and fair.

**WORLDACTIVE INTERNETBROKERS LOOKED TO THE PAST AND THE FUTURE TO BUILD THE PERFECT PLATFORM FOR ITS CLIENTS!!!**

## WHITEPAPER SECTION

**#1]** All portfolios have a registration number which is registered and cataloged in our business premises under the strictest conditions.

**#2]** All portfolios have an expiry date which must be observed. Crypto accounts have an expiration date too.

**#3]** All portfolios and Crypto Accounts have an GSMD, MVI, STIP or MSCI Index or pointer. Please note: your portfolio must not fall below 21.5% otherwise you will lose your portfolio and thus your chance of a payout. If you get below 21.5%, you have almost lost your portfolio.

**#4]** After you have selected and paid for a portfolio, no money is refunded and thus credited to your portfolio or crypto account so that income can be generated in your current account.

**#5]** A portfolio will not be paid out until it has expired (or only if it is specified in the portfolio that interim payments can be made). *In some cases, it is necessary to appear in person.*

**#6]** Crypto accounts can only be withdrawn after the minimum amount of cryptocurrency has been reached and not earlier.

**#7]** All portfolios are kept under the strictest security precautions and under the registration number so that no problems or complications arise. All portfolios are subject to our internal regulatory agency, WorldActive InternetBrokers.

**#8]** Every portfolio has its term. Regardless of the deposit amount. When the time runs out, you will usually receive your payout provided your GSMD index and MVI index are not below 21.5%. If you are below 21.5%, you have lost your portfolio or your crypto account. The international investment market is solely responsible for the loss or gain of a portfolio or crypto account. And not the company or its founders and their support.

**#9]** All members and partner companies of this company WorldActive InternetBrokers are protected from any loss or gain. Reason: all systems run fully automatically and therefore nobody is responsible for his or her hand in the system. This applies to all products offered by WorldActive InternetBrokers and the National Stock Exchange of Australia. Also promotional products too.

**#10]** Nobody is obliged to buy a portfolio from WorldActive InternetBrokers or to buy into our portfolio. WorldActive InternetBrokers tries the best for each customer in order to grant financial freedom at the end of the portfolio's term.

**#11]** All portfolios here on WorldActive InternetBrokers website are connected or linked to the international investment market so that manual action is **completely excluded**. This means that our systems run completely automatically without a human being in the system. Our systems have been running fully automatically for more than 10 years and therefore we exclude any human action. We guarantee that because we ask you. Our machines are 100% real.

**#12]** Do not forget that your deposit has nothing to do with your trusted person manager or the contributor to your portfolio. Should you still claim your claim because you believe that you are right, we recommend that you contact our support. We want to help you if you help us too. We have first class specialists in the field of internet law, criminal law, fraud law, corporate law and first class prosecutors who will be happy to answer your inquiry.

**#13]** We guarantee that every company has its own email, no matter which email it is and why such an email. Every company on earth can freely decide which email it has. A company email is not required by law that you have to commit to having an email according to customer requirements. You can recognize OUR WorldActive InternetBrokers email by the original email of: "[worldactivebrokers@hotmail.com](mailto:worldactivebrokers@hotmail.com)". All other emails that are not compatible with THIS are regarded as fraudulent e-mails and accordingly take further steps against the person concerned.

**#14]** All bank accounts of a manager as well as any PayPal accounts, SKRILL or other accounts that have a FOUNDER, CEO, manager are linked to the company WAIB so that when payments are made to the account of a respective manager of the company WorldActive InternetBrokers, this payment is made immediately from the headquarters of WorldActive InternetBrokers in Australia will be confiscated on the same day. This is for security and to ensure that the amount of money is credited to the company on the same day.

**#15]** Please consider: A payout is only effective if you have met "all" requirements and we have all your data and complete bank details in order to transfer your money to you. Your transfer request is open to where you ultimately want the transfer of your amount to be transferred. And here, too, everything runs fully automatically. NONE from the headquarters of WorldActive InternetBrokers as well as all partners are privately liable for your loss OR gain of your portfolio or crypto account. From the moment you have bought in with us, your portfolio or crypto account are responsible for the profit or loss in the international investment market. That is why no one is personally liable. That is firmly anchored in law here in Australia.

**#16]** We distance ourselves from all situations like: Fraud, spreading false news, scammers, thieves or people who spread fraudulent intentions against us, false accusations against us, fraud against payments or deposits, defamation against our members and / or our company who only speak badly about our company and have no relationship with the company. And we will also take legal action against people who want to commit fraudulent intent against our company. The place of jurisdiction is and remains Australia. Our priority is: The simplicity and what we are as a company: A pure investment group Limited based in Australia under the leadership of the National Stock Exchange of Australia.

**#17]** National Stock Exchange of Australia and WorldActive InternetBrokers have the right to freeze customer deposits or any customer deposit immediately. This unexpected moment affects the internal security of our company. We are asking all customers who have a financial matter with the company [national Stock exchange of Australia] and [WorldActive InternetBrokers] to wait until further notice. You will be automatically informed how to proceed. Do not do wrong and wait for the process of restoration. The running-in phase lasts no longer than 4 weeks.

**#18] Keep Calm.** Mostly the freeze phase has to do with cyber attacks that affect our internal security and we don't want you to lose your money. BUT: 65% of our revenue suffers losses from these cyber attacks. If you are one of them, we have no way of giving you back your income or income from your portfolio. Everything you have done so far is lost. And don't forget one thing: there's nothing we can do about it. AND: If we lose your money through cyberattacks, we have lost our revenue in the company as well. Who gives us our money back?! That's why this matter has top priority. Therefore, if a cyber attack takes place, we will indicate it on the main page of our company.

**#19]** Just as we explain in our terms and conditions and also in the FAQ's, the same applies here: Deposited money will not be refunded. On the day of the deposit you were aware and you had every opportunity to read all the information about our company and you also accepted it.

**#20]** That's why we keep saying this to our clients before they invest, read the terms and conditions, read the FAQ's, read our white papers etc etc. We can't behave like little kids every time and JUST because a CUSTOMER means, thinks, claims or whatever comes to mind, blame us for anything that comes to mind just because the customer thinks it is at their discretion has to work the way he wants it to.

**#21]** If you have a problem with the company and don't know what to do, we ask these customers to contact our complaints office and leave a message there. Someone from the National Stock Exchange of Australia firm will get in touch with you to help you resolve your issue or write to us at [worldactivebrokers@hotmail.com](mailto:worldactivebrokers@hotmail.com) and we will forward your message to our colleagues.

**#22]** The reason there are no money back refunds for any deposit whatever is that at the time you joined the company and purchased any of our products, we assumed that you were read clear "ALL" the information on our website as an investment Concerning Flight--Payment AND OR OTHER CHARGES TO BE PAID, and/or whatever payment, READ, UNDERSTAND AND KNOW WHAT IT MEANS TO PAY INTO AN INVESTMENT COMPANY.

These are our WHITE PAPERS!

We reserve the right to amend, update, delete or modify our White Papers at any time and without notice whenever it suits us.

Our company, the WorldActive InternetBrokers, really exists but because we are under the leadership of the National Stock Exchange of Australia, there are only 3 guys from the National Stock Exchange of Australia who work closely with the company of WorldActive InternetBrokers and only under the strictest and regular conditions also have knowledge of WorldActive InternetBrokers. No one else. This is guaranteed because we are writing it to you here and we have nothing to fear.

Changes can take place at any time | Please check out our whitepaper often.
